India

Dear Mr. Joseph George,

This is a formal invitation for you to attend and participate in the Eight Asian International Seminar on Atomic and Molecular Physics (AISAMP8).

The AISAMP8 will be held at the University of Western Australia, Perth, Australia. The official dates of the Conference are November 24 -28, 2008. The registration desk will be open in the afternoon of November 23, 2008. The Conference will consist of invited and contributed talks and poster presentations.

At this time we are not able to include any financial support for your travel, registration fees or local expenses once you arrive in Australia. **We cannot waive the registration fees for any participants, including speakers.** However, we are trying to obtain additional funding for the conference.

The AISAMP8 has no influence over the visa application process, so we urge you to begin to work immediately with the Consular Section of the Australian Embassy or Consulate closest to you. Representatives there will help you to determine how to apply and the time required to process your application.

Up to date information about the conference can be found at <http://www.aisamp8.uwa.edu.au> .
Queries can be made by e-mail to aisamp8@uwa.edu.au .

We look forward to having you with us at the AISAMP8.

Yours faithfully

Dr. Elena Semidelova
AISAMP8 Coordinator

**THE 8th ASIAN INTERNATIONAL SEMINAR ON ATOMIC AND
MOLECULAR PHYSICS
November 23-28, Perth, Australia**
